

## **Performance of the Institution in One Area Distinctive to its Vision, Priority and Thrust**

Vidyasagar Kala Mahavidyalaya is situated in rural and tribal area at Khairi village near Ramtek. The vision of the institution is to extend the benefits of quality education to the rural, tribal and underprivileged sections of the sections of the society. 'To Develop all-round personality of students and make them better human beings' is our mission. Since its establishment the institution making sincere efforts to work as per the vision and mission. All the stakeholders are continually working towards creating an encouraging atmosphere for students to acquire perception into their academic pursuits to make them more skilled, erudite and employable.

Students are nominated to the different committees as a part of participative management. Representation is given to the students on various statutory and non-statutory bodies such as College Development (CDC), IQAC, Internal Complaints Cell (ICC), NSS and other important committees of the institution. We conduct curricular, co-curricular, and extra-curricular activities to develop the wholesome personalities of students.

Institution provides opportunities to students to organize programs, debates, class-talks in different subjects to demonstrate leadership qualities amongst them. Our college is located in a pilgrimage zone, so there are not any large-scale industries in the area hence, there is no option to have linkage programs with large-scale industries, but we try to provide training programs to some of our students through our association with the owners of small-scale industries. We established functional MoUs with some small-scale industries and academic institutions. Guest lectures, seminars and workshops are often organized for student's orientation and training.

Institution promotes research and innovative programs for students and teachers. Students undertake field projects in the subjects like Sociology, Economics, Political Science and History. College is also involved with our collaborating institutions in academic activities. A Help Desk is functional in the institution to resolve queries of students and parents regarding the admission and scholarship process. The feedback from the stakeholders is taken into consideration for providing better teaching learning experiences to students. Their feedback and suggestions are valued in the decision-making process of the institution.

Thus, as per the vision and mission of our institution we work our level best to bring the first-generation learners from rural and tribal area into the mainstream of education and provide them quality education, develop their personality and enhance their employability.
