

Performance of the Institution in One Area Distinctive to its Vision, Priority and Thrust

Our institution is situated in a tribal area at Khairi (Bijewada) village. ‘To extend the benefits of quality education to the rural, tribal and underprivileged sections of the society’ and ‘To Develop all-round personality of students and make them better human beings’ are the vision and mission of the institution respectively. As per the vision and mission of our institution it is our prime motive to bring the first-generation learner into the mainstream of education and provide them quality education, develop their personality and enhance their employability. The vision and the thrust of the institution is reflected through the following key activities of the institution:

- Special preference is given to the students from rural and tribal areas during the admission process of the college. Most of the students admitted in the college are first-generation learners. One third of the total strength of the students admitted during the year belongs to the S.T. category and most of them belong to the poor economic background.
- Representation is given to the students on various statutory and non-statutory bodies such as College Development (CDC), IQAC, Internal Complaints Cell (ICC), NSS and other important committees of the institution. Their feedback and suggestions are valued in the decision-making process of the institution.
- Students are nominated to the different committees as a part of participative management.
- A Help Desk is functional in the institution to resolve queries of students and parents regarding the admission and scholarship process.
- Students are motivated to undertake research-oriented field projects in various subjects.
- Organizing field visits, study tours, on job training, collaborative activities to provide exposure for better future opportunities.
- Motivating students to participate in collegiate events, programs, sports and cultural events to display their hidden talents.
- Providing opportunities to students to organize programs, debates, class-talks in the subjects like literature, sociology, history, economics, political science etc. to demonstrate leadership qualities amongst them.
